MAXQVISION

UNLOCK YOUR DATA

Innovative

QVision is an innovative, easy to use, ad-hoc inquiry and reporting tool that provides secure access to your data right from your browser.

QVision Views

QVision provides many different views of your data. KPIs, Pie Charts, Bar Charts, Grids, and Pivot Grid views are just a few examples of different options you use to see your data.

The image displays several screenshots from the MaxQVision software interface:

- Main Dashboard:** Shows a navigation menu (Accounts Receivable, Inventory, Overview, Recurring Billing, Options) and a list of companies. Below the list are several KPIs:

Cash Balances:	\$1,312,770.19
Accounts Payable Balance:	\$495,776.70
Accounts Receivable Balance:	\$1,772,857.60
Inventory Valuation:	\$33,945,627.00
Open Purchase Orders:	\$95,437.63
Open Sales Orders:	\$2,782,007.79
Today's Sales Orders:	\$0.00
Month To Date Invoiced Amount:	\$56,381.00
Today's Invoiced Amount:	\$0.00
- Purchase Orders View:** A table showing a list of purchase orders with columns for PO Number, Total, PO Date, Terms, and Buyer.

PO Number	Total	PO Date	Terms	Buyer
000043	8641.25	8/4/2009	Net 30	
000044	\$126.25	8/4/2009	Net 30	
000046	8641.25	8/5/2009	Net 30	
000046	8641.25	8/5/2009	Net 30	
000053	\$33,006.00	11/17/2009	Net 30	
000054	\$23,035.00	11/17/2009	Net 30	
Total: \$54,087.00				
- Inventory Summary View:** A table showing order totals by customer ID and date range.

Customer ID	11/9/2009	11/10/2009	2 Total	11/24/2009	Grand Total
C020	\$24,000	\$4,180	\$28,180	\$4,000	\$32,180
- 3D Pie Chart:** A 3D pie chart showing the distribution of cash balances. A tooltip indicates: "Cash - Checking - Balance Sheet: 96.00%".
- Bar Chart:** A bar chart showing aging data for different periods.

Period	Amount
Current	\$165,623.00
30 Days	\$116,185.00
60 Days	\$74,140.00
90 Days	\$11,420.00
Over 90 Days	\$1,887,895.56
- Table View:** A table showing account balances with columns for Account, Sub Account, Account/Sub Account Description, and Balance.

Account	Sub Account	Account/Sub Account Description	Balance
1000	00	Cash-Checking - Balance Sheet	\$56,617.19
1009	00	Cash-CBS - Balance Sheet	\$1,256,153.00
			Total: \$1,312,770.19

DRILL DOWNS

Easily Drill Down to Details
 From your QVision views, its easy to drill down from any grid line to additional information. Just click the expand button **+** to display the detail or related information.

The screenshot shows the MaxQVISION interface with a navigation menu at the top: Accounts Receivable, Inventory, Overview, Recurring Billing, and Options. The main window displays a grid of customer data. A specific customer row is expanded to show order details, which is further expanded to show line items.

Drill Across—QVision Can Launch Any Related Query Easily

Drill Across allows you to click on a data hyperlink to see additional information. Just click on the link and a new related scenario (query) is launched.

In this example, we've queried all sales orders for a customer and drilled down to a specific sales order to view the line items on that order. By clicking on the Inventory ID hyperlink (drilling across), QVision launches a new inventory inquiry scenario (a related query) in a new window, showing the item site information tab.

QVision Makes It Easy for All Users To Find What They Need

Very powerful filtering and grouping methods allow users to see only the data they are interested in. In this Group By example, State and City are dragged and dropped on the Group BY bar to create a new inquiry hierarchy.

City

Customer ID	Name	Class ID	Current Balance	Open Order Total	Sales Person ID	State
City: Kent						
City: Klamath Vally						
City: Lake Oswego						
City: Marysville						
City: New River						
City: Novato						
City: Portland (Continued on the next page)						
C015	Adventure-Works	COM	\$207,904.57	\$0.00		OR
C020	Adventure Works	COM	\$12,907.35	\$221,641.50	EC	OR
C025	Alpine Ski House	COM	(\$65,000.00)	\$0.00		OR

EXPORTING DATA

It's Simple to Export Data Out of QVision

Choose what level of data you want to export and in what format—it's that easy. In this example, data is exported to Excel for additional analysis or to view when offline.

ACTIONABLE

QVision's Action Arrow  **Indicates That There Are Additional Actions That Can Be Taken**

In this action example a MaxQ eProphet inventory report card report (a SQL Server Reporting Services Report) is executed by selecting Product Report Card menu option.

Drag a column header here to group by that column

Inventory ID	Description	Class ID	Status
Inventory Maintenance - Inventory ID		SOFTW	AC
Product Report Card - Inventory ID		AIRCON	AC
AC0002	Fan	AIRCON	AC
 AC0003	Germicide Filter	AIRCON	AC
 AC0004	Internal Electric Motor	AIRCON	AC
 AC0005	Centrifugal Blower	AIRCON	AC
 AC0006	Rubber Gasket	AIRCON	AC
 AC0007	Condenser Coil	AIRCON	AC
 AC0008	Refrigerant	AIRCON	AC
 AC0009	Cooling Coil	AIRCON	AC

Page 1 of 10 (98 items) | 1 2 3 4 5 6 7 8 9 10 | Create Filter

Click on the QVision Action Arrow to launch related screens or reports.

In this example, QVision takes you to Microsoft Dynamics CRM and shows you the CRM Opportunity associated with the order.

In this example the Microsoft Dynamics SL Sales Order screen is launched.

Two choices are provided in this Action Menu —
 Order Confirmation Report
 Sales Order Maintenance screen.

EXTENSIBLE + CUSTOMIZABLE

QVision is Easily Customized Using the Field Chooser

Users can easily customize their views. Use the Field Chooser Box, shown here to add or remove fields.

Drag a column header here to group by that column

Customer ID	Name	Class ID	Current Balance	City	Open Order Total

Create Filter

To reorder columns just Drag them to different location or just Resize column widths. Using QVision's powerful Scenario Wizard Builder and its metadata based design, users can easily create a new or customize any existing scenarios.

DATA AGGREGATION

QVision Provides Simple to Use Data Aggregation. When looking at a customer in QVision, you may see data from several different systems to provide a complete view of that customer. Accounts Receivable and other financial data may come from one source, contract management information from another, and open sales opportunities from a CRM system. Data is stored in many different locations and systems, but QVision will aggregate all of the data into one view so the user sees everything at once. Even better, with one click you can see the related screen or report from the appropriate system.

In this example, data is being presented from both Dynamics SL and Dynamics CRM systems to give an aggregated view of the customer.

PRESCRIPTED GUIDANCE

Qvision Provides Prescribed Guidance to Its Users.

Scenarios are presented to the user which allows them to follow a direct path through the data to get to an answer quickly.

For example,
A Customer Service Representative has a direct path to find a proof of deliver answer to a customer shipment question. Qvision guides them from finding the customer all the way through to the actual package shipment information.

SECURE

QVision Users See Only What Their Administrator Allows Them to See.
Role, User, Row and Column level security are built right in.

In this example a user named ANTonK is setup to see only one company "CHS".

User with **full** privileges

ANTonK User with **limited** privileges

ABOUT MAXQ

MaxQ Technologies - A recognized leader. For almost 25years, MaxQ has had a team of dedicated resellers that provides local and regional support for MaxQ product implementations throughout the world. With more than 1,000 customers located in Europe, South America, Australia and in the North America, each client relies on MaxQ's deep industry experience to run their daily operations and optimize their businesses' overall performance. This commitment to innovation, industry expertise and exceptional service is just one reason why so many have remained loyal MaxQ customers and resellers year after year.
